ABSENT

Minutes of the meeting:

- The following changes were suggested in the existing syllabus for the students admitted during 2015-16 onwards: ^{Topic on 'Organic Foods - meaning & advantages' is included in Unit-I of Advanced Food Science}
 - 'Effect of diet on water' in Unit-IV of 'Physiological Aspects of Nutrition' can be deleted.
 - 'Deamination' in Unit-III of 'Biochemistry' can be removed.
 - Topic on 'Theorems of probability' in Unit-V of 'Research methodology & Statistics' can be replaced by 'Rules of Probability'.
 - 'Regional enteritis' in unit-II of 'Nutrition in Disease' can be deleted.
 - Topic on 'Role in prevention of anaemia' in unit-IV can be deleted, and 'Effect of excess intake of vitamin like molecules' is replaced by 'functions of vitamin like molecules' in unit-III of 'Micronutrients'.
 - 'Stages of product development' can be listed

as 'idea stage, developmental stage and commercialized stage', and topics on 'Nutritionally modified foods, simulated foods, synthetic foods and imitation foods' can be removed from unit-I of 'Food Product Development and Quality control'.

- Minor millets like kodo, proso, barnyard and Italian millets and their milling can be included in unit-II of 'Food Processing and Packaging'.
