Vellalar College for Women, Erode

Gloria Naylor is one of the well known women African American novelists. Her first novel came out in 1982 under the title Women of Brewster Place. The novel depicts the dilapidated society and the desolate women of a small community that struggles to survive in a fictitious place. Naylor presents a bleak and degrading community of people through which she depicts the struggle and suffering that African American people in general and African American women in particular undergo in the United States of America. Through the various women voices, she paints the desolate picture of their lives. The paper aims at understanding how Naylor associates her women characters and their sufferings to the consciousness of Negritude and its effect on their lives.

The novel is told in seven stories of which six belong to individual women and the final story is about the community in general. All the six women are residence of a rundown community called the Brewster Place. The fictitious Brewster Place is a housing development that had gone wrong. However, it had survived the ages and as the story is told, it is occupied by African Americans who migrate to the place from the south after the civil war era.

Mattie Michael is the first of the six women who narrates her life story. Mattie lives a typical life of an African American woman: pregnancy out of wedlock, single mother, and women caretaker. She is filled with the conscience of negritude throughout the story. She forms the part of the great migration to the north from the south. She lives in poor condition and works hard for her living. She gives priority to her motherhood and relocates herself for the sake of her son's better life. She sacrifices everything she own for her son and becomes lonely after her son departs. Yet, Mattie is a strong woman who overcomes her grief and disappointment in life and begins to live for other women like her who suffer in the hands of their men. Mattie has done nothing wrong except being African American and therefore living within the circle of the community with the conscience of being a black person.

Etta Johnson is another African American woman who suffers not only in the hands of the white but in the hands of her own men. She is also another woman who goes in search of a stable married life. When Etta loses her hope of setting down when she is disappointed by Woods, Mattie helps her to come out of her desolation. Kiswana is another woman of the Brewster Place who bears the conscience of negritude as a yolk round her

http:// plumes.hogobooks.com/2016/jan/article01.html

neck. She voluntarily comes to Brewster Place to help the community but she is taunted by her mother and reminded her of her lineage. Kiswana's consciousness of being a black woman gets expression when she angrily calls her mother 'White man's nigger'.

Ciel is another woman character in the novel who like other women wishes to have a stable married life. She tolerates the abuse which she receives in the hands of her husband. She is conscious of her blackness and as a result does not stand up and fight Eugene. She is distraught when her only child dies of electrocution. She is also consoled by Mattie who appears to be an anchor that holds the lives of several women. Cora Lee is another woman character in the Brewster Place who is fond of being a mother. She gives birth too many children but fails to care for them. Kiswana's help makes her realize her mistake but she goes back to her old ways helplessly. The consciousness of being black and the lack of security and opportunity push black women of the story to hold on to their families with or without men in them. They are desperate to make a family where they believe there is security but African American men of the story desert their women and the women are left to fend for their family as single mothers. The very scenario is caused due to racial discrimination.

Lorraine's life is full of suffering and abuse in the hands of men. She is considered as an outsider in the community because of her sexual orientation. She befriends ben, another men character that abuse their women and allow white men to abuse them as well. The consciousness of being black plays a significant role in the lives of these men as well as these women. The very outlook of life exhibited by these people is the direct result of the constant reminder that lurks in their minds. Men abusing women is also caused by such constant nagging. Women many a times become insensitive to the abuse and passively accept their fate. The numbness and indifference towards such injustice and oppression is caused due to the conscience of negritude that doggedly presses them down towards dissolution and despair.

Naylor's Women of Brewster Place vividly paints the dismal and desolate life stories of African American women which in turn is a representation of a major social condition that prevails in the United States of America especially in the increased cases of single mothers and unwed mothers.

It is negritude that has pushed these women towards such a despondent habitat which is considered by them as promising but disappoints them as it crumbles around them as they try to build it. Their color and their family conditions drive them towards Brewster Place i.e. towards destruction and hopelessness. The men of the novel escape from responsibilities and the women struggle to pick up their lives after men leave. However, the women of the Brewster Place exhibit positive attitude towards life. Even though they are driven to the end of the world because of their blackness as well as their men, they come together and help one another in building their lives. The novel paints a positive story amidst a negative setting. It portrays a group of women who are strong and compassionate. Who help one another to withstand the barrage of misfortunes that fall on them.

# A Post Modernistic Reading of Gloria Naylor's Mama Day

## Ms. K. Kokila

Ph.D. Research Scholar PG & Research Department of English Vellalar College for Women, Erode

## **Dr. D. Bhagyathara** Associate Professor & Head PG & Research Department of English Vellalar College for Women, Erode

Like life, literature has also been dynamic in the process of self reflection. Through the ages it has criticized itself, ridiculed itself and in due course reformed itself for better or worse. Philosophy has played a very significant role in bringing out such reforms. It has made a comprehensive contribution to the shaping of writers and their writings as they are today. One such philosophy that heavily influenced the later part of the twentieth century is Post Modernism. It has radicalized the very foundation on which writers worked. Many a twentieth century writer, captivated by this all-encompassing approach, has embraced it in order to define their expressions. Gloria Naylor, an African American Novelist, is one such writer who eagerly drew from the facets of Post Modernism. Women of Brewster Place, Men of Brewster Place, Bailey's Café, and Mama Day are few of her novels which are appreciated for their

literary quality. Mama Day is one of her major works which is a romance where rational and the irrational have a conflict on an imaginary land. This paper aims at giving a reading of this novel from a Post Modernistic perception which will definitely throw light on Naylor's dexterity as a writer and her success in employing Post Modernistic tools to meeting her objectives.

The term postmodernism has been employed to refer to a host of movements, mainly in art, music, and literature that reacted against tendencies in modernism, and are typically marked by revival of historical elements and techniques. ('Post Modernism') it can be said that the very essence of Post Modernism is to resist any kind of classification or definition. However, there are a few commonly found characteristics that are generally identified as Post Modernistic: Post Modernistic works do

## COJELL – January 2016

not have a neatly cleaned up ending like Modernistic work. In fact they parody such features. Post Modernistic writers approach creation as a chance and not as a craft. There is Metafiction to usurp the control of the author. Ridiculing established conventions found in matters of subject and genre is commonly seen in Post Modernistic works. This often leads towards making the work a Pastiche. Fragmentation is another chief characteristic of Post Modern works similar to that of modernistic works but while Fragmentation presents an obligation to the author under Modernism, Post Modernism renders the author impotent and allows the work to remain a part of the chaos.

Mama Day is a romance which has, in its center, a serious conflict between reason and ritual with love as its background. The story of Mama Day revolves round two characters George and Cocoa. Cocoa is a young southern woman searching for a job in New York. Cocoa has strong ties with her family and ancestry in Willow Spring Island. George is an orphan who is an engineer with his own firm. Cocoa and George meet when he interviews her for a job. Later both get married in spite of Mama Day intervening with her magic. Four years after their marriage, cocoa and George go to Willow Springs and George is mystified by all the supernatural events that happen in the place. He is a highly rational person and he refuses to believe

in the supernatural. Meanwhile George comes to know that Cocoa is in mortal danger which Mama Day opines that it is because of Ruby's Hex. Ruby is believed to have hexed Cocoa out of jealousy. Even though George has great difficulty in believing the occult, he tries to carry out the instructions given by Mama Day in order to save Cocoa for the sake of his love. However, his disbelief leads to carelessness that ends up in tragedy.

Mama Day is a good example for a Post Modernistic work. "Navlor uses Pastiche, Inter texuality, metafiction, and magical realism [...] to picture not only the dominance of racism and gender issues but also the absurdities of the individuals, and the malignity and enticement of the soul." (Karunambagai) the experiment in the Meta Narrative starts with the narrative technique. In Mama Day, the story is unfolded through the conversations that Cocoa has with her husband, George who is dead. And, like in her other novels, an omniscient narrator fills the gaps and adds credibility to the supernatural phenomena that is found in the story. The narration of the novel contains a multitude of narrative voices which include: 1st person plural narration - The Communal voice of the people from Willow Springs. It is also the first one introduced to readers. This voice is best described as an omniscient voice that has been around to see everything. The introduction and sections throughout the book are written

2

# Ms. K. Kokila and Dr. D. Bhagyathara

in this voice as the different stories of Bascombe Wade, Sapphira Wade, and what exactly "18 and 23" is. For an example of this communal voice is in this sentence from the introduction that states, "And he could listened to them the way you been listening to us right now." Rita Mae Brown states that "The different voices are beautifully realized but confusing to read." (Brown)

Naylor's further experiment happens in the 'Time' element of the plot. Like most other Post Modern and Post Colonial works, the story swings not only from one time frame to another, but it swings from one world of reality to another world of fantasy.

Parody is also seen in Mama Day. Mama Day contains allusions to Shakespearean plays such as King Lear - which is referred to many times by both Cocoa and George, Hamlet who houses a female character by the name of Ophelia, and The Tempest which includes a female character with the same name as Mama Day - Miranda. Like Miranda from the Shakespeare play, Mama Day also deals with magic or supernatural powers, and is set on a secluded island. "The storyline in Mama Day, like another of Shakespeare's play Romeo and Juliet, concerns star-crossed lovers." (Mukherjee) "Naylor's Mama Day blends the magic, myth and reality equally to present the authority of

aboriginal African Americans." It is a novel whose subgenres include legend, folklore, mystery, and fantasy.

Gloria Naylor has dexterously and judiciously employed Post Modernistic tools in creating her novel, Mama Day. She has used Post Modernistic tools to project a collage of events that depict the capricious and vagarious constitution of human soul. Naylor has presented human life and its tenuous ties to reality and its limitations to distinguish reality from that of fantasy in a creative and captivating style with the background of romance, magic, and rational.

# ECONOMIC EMPOWERMENT OF RURAL WOMEN THROUGH SELF- HELP GROUPS

\*Dr.S.Jothimani, Assistant Professor in History, Vellalar College for Women, Erode, Tamilnadu, India.

### Abstract

In most of the developing countries today, more and more emphasis is laid on the need for development of women and their active participation in the main stream of development process. It is also widely recognized that apart from managing household, bearing children, rural women bring income with productive activities ranging from traditional work in the fields to working' in factories or running small and petty businesses. They have also proven that they can be better entrepreneurs and development managers in any kind of human development activities. Therefore, it is important and utmost necessary to make rural women empowered in taking decisions to enable them to be in the central part of any human development process. The empowerment of women also considered as an active process enabling women to realize their full identity and power in all spheres of life. Through organizing informal selfhelp groups (SHGs), rural women in India are provided credit and extension support for various production-oriented income generating activities.

### Introduction

At the dawn of the Indian history women possessed a high social status and some of them were widely reputed for their learning. But the social, economic and political changes of later years levered their position and gradually denied them their right to education too. The social code for women, their early marriage and seclusion restricted their life by the end of the eighteenth century. But the Indian renaissance in the following period increasingly touched all aspects and problems of national life, position of women not exempted, till finally under the inspiring leadership of Mahatma Gandhi, it assumed the form of political struggle and social reforms in which women joined freely and shared equally with men the burdens and the honors. Later, the constitution of India provided women equality of status and greater opportunities, so as to give them their earlier pristine glory.

In view of bringing improvements in the socio-economic condition of women, efforts were made to maximize the participation of women in different educational levels, with the notion that education is the most important instrument to bring awareness about their rights, social status, as a prime element to maximize participation in different categories of remunerative employment etc. For his purpose, many awareness programmers were undertaken for women empowerment.

Self Help group intervention is well organized all over the world an affective tool for poverty alleviation and improving socio-economic states of poor and marginalized. In India too, Self Help Group is making head way in its effort for reducing poverty and empowering women. This concept is the brain child Mohamma Yunus of Bangladesh and has brought a revolutionary change in the field of development. Further, this has become an important part of micro finance through the network of NABARD and NGOs has been largely supply driven and a recent approach (Action Aid, 1995). Micro finance other than banks are engaged in the provision of financial services to the poor.

### **Objectives of the study**

Basically the present study aims to know about the activities of the self-help groups in the empowerment of rural women in Erode district. Specific objectives are:

1. To know about the socio-economic status of women in rural areas

2. To know about the role of the women empowerment through the Self-Help Groups.

<sup>3</sup>. To find out the real progress and administrative structure of the Self-Help Group in rural areas

4. To know about the knowledge on the Government Schemes for getting help to form Self-Help Groups.

5. To know the role of the co-ordination of Self-Help Groups and Non-Governmental organizations in the rural areas in women empowerment.

# **Research** Methodology

The primary data collected through the interview schedule is represented in the form of Tables. The tables are analyzed with the percentages, so as to ascertain a comparative study. Secondary information was gathered from Sociological Abstracts, leading regional, national and international journals and books published in the fields such as women studies, women empowerment, women development, women employment, rural women, Self-employment, Self-Help Groups, etc.

# Functioning of Self-Help Groups

SHGs are functioning in democratic manner. The upper limit of members in a group is restricted to 20. Among them a member is selected as an 'animator' and two members are selected as the representatives. The animator is selected for the period of two years. The group members meet every week. They discuss about the group savings, rotation of sangha funds, bank loan, repayment of loan, social and community action programmes. Objectives of the Self-Help Groups are

- To develop women in socially and economi cally, who live below the poverty line
- To stop treating of women as slaves
- To develop self-confidence among the women
- To bring out the potential in women
- To promote gender equality and equal rights.
- To promote unity among women, learn to work together
- To abolish dowry
- To enhance community harmony
- To promote education and make cent percent literacy for women
- To give importance to the differently abled person and help them

# LFS-LITERARY FINDINGS

```

# Analysis and Interpretation of the data

The primary data collected through the Interview Schedule is represented in the form of tables. The tables are analyzed with the percentages, so as to ascertain a comparative study. Further, on the basis of collected data certain generalizations were made so as to get findings, suggestions and conclusion. The socio-economic background of the respondents revealed the information on the family background, income, education, etc. The information collected from the respondents on their socio-economic aspects is analyzed, interpreted and discussed as under.

# 1. Age of the Respondents:

Age determines the urge to work. It is emphasized that the younger have power or energy to work hard; whereas the elders have intelligence based on their rich experience. Hence, information was collected from the respondents on the age groups and presented in the following table as under

Table No. 1

Particulars	No. of Respondents
18 to 25 years	26
26 to 40 years	38
41 to 50 years	21
Above 50 years	15
Total.	100

It is observed from the above table that among the respondents covered under the study. 38% are between the age groups of 26 to 40 years followed by, 26% are between the age group of 18 to 25 years, 21% are between the age group of 41 to 50 years and the remaining 15% of the respondents are of above 50 years of age. It is

ISSN:2278-2311

80

analyzed that majority of the respondents in the present study are of young aged women.

#### 2. Education

The information education of the respondents helps to assess their knowledge about the management of Self-Help Groups, government policies about the women empowerment, etc. Hence, information was collected from the respondents on the education and presented in the following table.

Particulars	No. of Respondents
Illiterate	36
Lower / Higher Primary	42
Intermediate	22
Total	100

The levels of education of the respondents made it clear that 42% have completed lower or highest primary education followed by, 36% are illiterate, 22% have completed intermediate. It is emphasized that majority of the respondents are literates, but not highly educated.

# 3. Restriction on social evils due to women empowerment and rural development

Government has formulated welfare policies for women empowerment and rural development, to remove and restrict the social evils like Alcoholism, domestic violence, dowry practice, gender inequality, female illiteracy, etc. As such it was asked to the respondents on whether these evils were restricted or controlled due to the efforts of the government and the collected responses are tabulated as under.

Table	No.	3
-------	-----	---

Particulars	No. of Respondents
Alcoholism	16
Domestic Violence	13
Gender Inequality	18
Female Illiteracy	53
Total	100

It is noted that a few of the respondents have stated that more than one type of social evil was restricted and as such, they were marked on two or three options in interview schedule. Particularly, 16% have stated that there is

restriction on Alcoholism, 13% have expressed that there is restriction on domestic violence, 18% have stated that there is reduction in gender inequality and a great majority that is 53% have agreed that there is increase in female education. Due to women empowerment and rural development, it is emphasized that female education is developed very much in rural areas.

### 4. Occupation of the Respondents

Occupation of the respondents plays an important role in Self--Help Group activities. If the respondents are housewives, then they may concentrate more on Self-Help Group activities. If the respondents are already working in other areas, then they are unable to concentrate on the activities of the Self-Help Groups. Hence, information was collected on the occupation of the respondents and presented in the following table.

Particulars	No. of Respondents
Agriculture / Horticulture	30
Animal Husbandry	11
Housewife	35
Any Other	24
Total	100

Table No. 4

The above table disclosed that 30% of the respondents are working in agriculture or horticulture, 11% are working in animal husbandry, 35% are housewives and the remaining 24% are engaged in other occupations.

# 5. Reasons for joining Self-Help Group

Apart from the motivation to join the Self-Help Groups, there are also many reasons for joining Self-Help Groups by the respondents. These reasons as expressed by the respondents are presented in the following table.

Particulars	No. of Respondents
Save the Money	18
Get Easy Bank Loan	37
Start Business	45
Total	100

Table No. 5

It is observed from the above table that of the total respondents covered under the study, 18% have joined Self-Help Groups to save the money, 37% have joined Self-Help Groups to get bank

80

It is

age

loans easily and remaining 45% have joined the Self-Help Groups to start their own business. Starting income generating activities is the main reason for joining the

Self-Help Groups as stated by majority of the respondents followed by the reasons to start business, get bank loans easily and such other reasons.

# 6. Nature of income generating work

After joining to the Self-Help Groups, the respondents have started income generating activities. The natures of such income generating activities are shown in the following table.

T	ab	le	No	).	6	
---	----	----	----	----	---	--

Particulars	No. of Respondents
Stitching Work / Handicraft	37
Animal Husbandry	23
Petty Business / Trade	40
Total	100

On the nature of income generating work involved by the respondents, 37% are engaged in stitching work and handicraft, 23% are involved in animal husbandry and 40% are involved in petty business or trade.

# 7. Financial progress after joining into SHG after 5 years

Self-Help Groups are formed for the improvement and progress of economic life and status of rural women. As such, it was asked to the respondents to furnish the information the financial progress of the respondents, after joining to the Self-Help Groups and the progress of five years and the collected information is presented in the following table.

Table No. 7

Particulars	No. of Respondents
Improved and Progressive	83
No Change	17
Total	100

It is emphasized from the above table that due to the participation in the Self-Help Group activities, financial progress of 83% of the respondents is improved and progressive and that of 17% of the respondents is not changed. It is highlighted from the study that the financial status of a great majority of the respondents is improvand progressive and hence, it can be generalized, that the aims of the Self-Help Groups is achieved to a greater extent.

# 8. Benefits got from SHG other than economic activities

The Self-Help Groups are formed so as to gain economic benefits. Apart from the economic benefits, the respondents have gained from other benefits such as education, religious, political benefits etc. Hence, the information was collected on the benefits gained from Self-Help Groups other than economic benefits and presented in the following table.

T	a	b	le	N	0.	8

Particulars	No. of Respondents
Social Status and Respect	31
Equality in all Aspects	29
More Freedom & SelfConfidence	40
Total	100

It is noted from the above table, the respondents have gained benefits from self-help groups in more than one aspect other than economic activities. Specifically, of all the respondents covered under the study, 31% of the respondents have gained social status and respect, 29% of the respondents have gained equality in all aspects and 40% of the respondents have gained more freedom and self confidence.

### Findings

- Creating awareness about the government and bank procedures.
- Making women able to read and write
- Taking them to visits outside.
- Developing the capability to manage a mini bank with ledgers and passbooks.
- Enhancing their knowledge and skills to undertake economic activities.
- Motivating them to increase their incomes by undertaking successfully, economic activities as individual or groups.
- Providing good marketing outlets for their products.

LFS-LITERARY FINDINGS

- ISSN:2278-2311

82

8

9

1

L

- Encouraging their participation in the Gram Sabhas, Panchayat Level Federation Clusters, Block Level Federations, meetings of BLCC and DPCC held under the chairmanship of the District Collector.
- Creating the confidence and courage to address and take up varied issues concerning themselves and the community.

### Suggestion

The following suggestions may be made from the present study.

- 1. Even though women are participating in socio-economic activities of the family and society, still they do not have adequate decision making authorities in their own families. Hence, it is suggested to the family members of the respondents to allow them to make the decisions in their families.
- 2. Bank services should be improved
- 3. There is need to control the social evils such as domestic violence, alcoholism, gender inequality and female illiteracy in the villages.
- 4. It is essential to motivate the rural women in starting up of Self--Help Groups, irrespective of their religion and caste, so that there will not be discrimination in the name of caste or religion and equal participation of rural women of all religions and castes.
- 5. It is suggested to the Self-Help Group members to attend and actively participate in the meetings of Self-Help Groups and discuss on the issues.
- 6. It is also essential on the part of the family members to provide adequate freedom to the women to spend the profit generated through income generating activities.
- 7. It is suggested to the Self-Help Group members to invest the profits earned through income generating activities in other productive activities rather than domestic or personal expenses.
- 8. There is need for the more efforts of the NGOs to train the members of the Self-Help Groups in income generating activities.
- 9. Efforts to increase female literacy are essentially needed in rural areas.
- 10. Additional initiatives should be taken to market the Self-Help Group's products.

11. The Self Help Group members can create awareness regarding women empowerment, health and hygiene, female infanticide, water conservation, kitchen gardening and other environmental issues in their respective areas.

#### Conclusion

The development of Indian women will be the biggest source of enrichment for our country's development. Empowering of women presupposes a dynamic and democratic change in the perception and expectation from women in our society. To help women, to attain economic independence is the first priority for such a change. In this regard, the emergence of self-help group to seek economic independence for every woman is a welcome change and given the assistance and guidance these self help group is bound to make not only a sea change in empowering women but also tap the hither to unutilized powers of women for development of the society as a whole.

SHGs started functioning all over Tamilnadu, in some areas they are functioning effectively whereas in some areas they face problems. Since SHGs help women to achieve economic empowerment, this policy measures can contribute a lot to the nation. To conclude, the economic activities of SHGs are quite successful. In this way, SHGs in three areas of Erode district were very successful to develop women empowerment and rural areas.

## List of Presentation and Publications

- 1. Paper entitled  $\hat{K}_{p,q}$  Factorizations of Symmetric Digraph of Wreath Product of Graphs has been presented in the National Conference on "Mathematics and Computer Techniques "'at PSGR Krishnammal College for Women, Coimbatore, Tamilnadu, during 22-23, March, 2016 and won second prize for best paper award.
- 2. Paper entitled Evenly Partite Directed Bigraph Factorization of Product Graphs has been accepted for presentation at the UGC sponsored National Conference on "Recent Trends in the Applications of Mathematical Sciences" at Vellalar College for Women, Erode, to be held during 08-09, September 2016.
- 3. Paper entitled Gregarious Star factorization of Tensor Product of Graphs has been submitted for publication in the Journal Discrete Mathematics, Algorithms and Applications

The papers to be published in the conference proceedings and in the journals will be sent to UGC- SERO as an outcome of this project.

அந்த சம்மங்களல், வெரும்பான் நடுத்தர எழு களில், வெங்காயம் இல்லாத சாம்பார்தான் வைப்பர். அந்தாவுக்கு வெங்காயம், சன்பம்பைற்றின் ராஜாவா கவும், கண்ணை கசக்க வைப்பதுமாக இருக்கிறது.

அதிக விலை இருந்தாலும், கவலைப்படாமல் எப்போதும் போல் சமையலில் பயன்படுத்தி, சாப்பி முவதற்கு எதுவாக, வெங்காய சேமிப்பு கலனை வடிவமைத்து, அதை வெற்றிகரமாக செயல்படுத்தி வருசிறார், ஈரோட்டை சேர்ந்த, வேளாளர் மகளிர் கல்லூரி, ஊட்டச்சத்து மற்றும் உணவுக்கட்டுப் பாட்டுத்துறை, இணை பேராசிரியர் அனுராதா.

தன் புதிய முயற்சி குறித்து, அவர் கூறியதாவது: வெங்காய உற்பத்தியில், இரண்டாவது இடம் வகிக்கும் இந்தியாவில், விலை ஏற்ற இறக்கத்தால், அன்றாட உணவில் அடிக்கடி பயன்படுத்த முடியாத நிலை உள்ளது.

(படிடினது நல்ல உல்லது. நம் நாட்டில், ஆண்டுக்கு, 4.30 மில்லியன் டன் வெங்காயம் உற்பத்தியாகிறது. பொதுவாக லிதைக்காக மட்டுமே, விவசாயிகள் சேமிக்கின்ற எம், மருத்துவ குணம் கொண்ட வெங்காயத்தில், லீலாரி, நார்சத்து, விட்டமின் சி, கால்சியம், நியாசின், தையாமின், மெக்னீசியம் உள்ளிட்ட ஊட்டச்சத்துகள், சரிவிகித அளவில், அடங்கியுள் என. ஆரோக்கியமான நபர், தினசரி, 50 முதல், 100 கிராம் வெங்காயம் உட்கொள்ள வேண்டும். விலை ஏற்றத்தின்போது, அளவு குறைய வரய்ப்புள்ளது.

எனவே, இல்லத்தரசிகள், கல்வி நிறுவனங் கள், வெங்காயம் அதிகளவில் சாகுபடியாகும் காலத் தில், குறைந்த விலைக்கு வாங்கி, சேமிப்பு கல எில் சேமித்து.வைத்து, சொந்த உபயோகத்துக்கு மட்டுமின்றி, உறவினர்கள், நண்பர்களுக்கு, விலைக்கு விற்கலாம். வீட்டில் இருந்தபடியே, இல்லத்தரசிகள் நல்ல வருவாய் ஈட்ட முடியும். இது பெண்களுக்கு, சிரமமின்றி வருவாய் தரக்கூடிய நல்ல தொழிலாகும்.

இதற்காக குறைந்தபட்சம், 1,500 முதல் அதிக பட்சம், ஒரு லட்சத்தில், கட்டுப்படுத்தப்பட்ட வற்றோட்ட வசதியுள்ள வெங்காய சேமிப்பு கலனை தயார் செய்ய வேண்டும், சேமிக்கும் வோது ஏற்படும் சேதாரத்தை, மூன்று முதல், ஆறு

🍐 ងាលាសត់តតវ៉ាព

🍝 மார்ச் 8.

மாதம் வரை, கணக்கிட வேண்டும். வெங்கா யத்தை மூன்று மாதம் வரை, 50 கிலோ பயன்ப டுத்தும் பயனாளிகளை தேர்ந்தெடுத்து, சேமிப்பு கலனை வழங்க வேண்டும்.

பயனாளிகளின் வீடுகளுக்கு சென்று, சேதா ரத்தை கேட்டறிந்தால், மற்ற பயனாளிகளுக்கு பரிந்துரை செய்ய, வசதியாக இருக்கும். பொதுவாக வெங்காய சேமிப்பு கலனை உட்புற, வெளிப்புற சேமிப்பு கலன் என, இரு வகையாக பிரிக்கலாம்.

. கல்லூரி, பள்ளி, உணவகங்கள், விடுதிகளில், 1,000 முதல், 5,000 கிலோ வரை, தேவைப்படும், அங்கு சேமிப்பு கலனை அமைக்கலாம். கலன் இருக்கும் இடம், மழைச்சாரல், தண்ணீர் வராத இடமாக இருக்க வேண்டும். தண்ணீர் தேங்க கூடாது, அருகில் குப்பை, கழிவறை இல்லாமல், சகாதாரமாக இருக்க வேண்டும்

ளங்கள் கல்லூளியில் யு.ஜி.சி., டுத்பதவி, கல்லூளி செயலாளர் சந்திரேசன், முதல்வர் ஆகியோர் வழிகாட் டுதலின்படி, சேமிட்டி சலன் அமைக்கப்பட்டு, விடுதி மாணவிகளுக்காக, பயன்படுத்தப்படுகிறது.

தேவைக்கேற்றவாறு, பத்துக்கு, பத்து அடி என்ற அளவில், 20க்கு, 20 என்ற அளவில் இடத்தை தேர்வு செய்யலாம். அடித்தளத்தை மர ரீப்பரால் உருவாக்க வேண்டும். முன்புறத்தில் சிறிய கதவு, மேற்கூரைக்கும் தளத்துக்கும், 10 முதல், 14 அடி வரை இருக்குமாறு அமைக்க வேண்டும்,

கலனின் ஐந்தாவது அடியில், நேருக்கு நேராக கடின கம்பிகளை கட்ட வேண்டும். வீடுகளில் வைத்து பாமமிக்கும் வகையில், குறைந்தபட்சம், 50 முதல், 60 கிலோ வரை சேமிக்க கூடிய, நகரும் அமைப்பு கொண்ட, இரண்டு முதல், மூன்று அடி உயரம் கொண்ட, இரண்டு முதல், மூன்ற அட உயரம் கொண்ட இரும்பு கம்பிகளை அமைக்க வேண்டும். வெங்காயத்தை பக்குவப்படுத்த, முதிர்ந்த வெங்காயத்தை அறுவடை செய்ய வேண்டும். வெங்காயத்தை, 250 முதல், 300 வரை, நால் கொண்டு கட்டி விட வேண்டும்.

மொத்தம், 24 மணி நேரம், மிதமான சூரிய ஓளியில் உலர விட வேண்டும். ஒட்டியுள்ள மணலை தட்டிவிட்டு, தாளுடன் தாள் ஒருபக்க மாகவும், வெங்காயம் ஒருபக்கமாகவும் இருக்கு மாறு தொங்க விட வேண்டும். இரண்டு அடி உய ரத்துக்கு மட்டுமே வெங்காய சற்றையை அடுக்க வேண்டும். உட்புற வெங்காய சேமிப்பு கலனில், ஒரு அடி உயரம் வைத்தால் போதுமானது.

முதல், 30 நாட்களுக்கு மட்டும், வெங்காய கற் றையை, இரண்டு நாட்களுக்கு ஒரு முறை திருப்பி போட வேண்டும். பின் இருவாரங்க ளுக்கு ஒருமுறை செய்தால் போதும். குளிர்காலம் மற்றும் மழைக்காலத்தில் முளைவிட்ட வெங்கா யத்தை, முதலில் உபயோகப்படுத்த வேண்டும்.

வெங்காயத்தின் மூலம் மட்டுமே, சமைய லறை பட்ஜெட்டில், மூன்று மாதங்களில் விலை யேற்றத்துக்கு தக்க வகையில், 175, 550, 925 ரூபாய் வரை சேமிக்க முடியும். சேமிப்பு கலன் வடிவமைக்க தேவையான, 3,000 ரூபாயை, ஒரே ஆண்டில் எடுத்துவிடலாம், என்றார்.

Sub: Submission of publication details -Reg.

Ref: Your letter File No. MRP-4942/14 (SERO/UGC) COMCODE: TNBA015, dated: August, 2016.

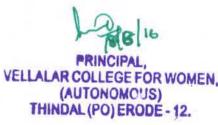

I would like to express my sincere gratitude for having sanctioned the Minor Research Project entitled "A study on government initiatives for continuing education of school drop outs with special reference to Erode district". I wish to bring to your kind notice that, I am herewith submitting the publication details for your kind perusal. **International Journals:** 

- 2015,pp 197-204. Impact factor: 4.618. ISSN: 2349-0187.
- 2. Government Initiatives and effectiveness of implementation: An empirical investigation 2015,pp 1956-1966. Impact factor: 5.912.ISSN: 2319-9059.

I request you to kindly release the balance grant of Rs. 17,500 at an early date.

Place: Erode Date: 18-08-2016

Encl: As stated above

Principal Investigator

Dr.P.RADHA PRINCIPAL INVESTIGATOR UGC - Minor Research Project Assistant Professor of Computer Science Vellalar College for Women (Autonomous), Erode - 638 012. 8. Summary of the Progress made so far under the project (not more than 200 words):

Histochemical localization methods in combination with microscopic imaging techniques are much useful to distinguish useful plant / plant parts from non-useful ones. Hence, a method would be developed to formulate new herbal formulation or drug in pharmaceutical industries. There is a chance of identifying active phytochemical principle for one or more curative properties. If any such compound is/are identified, will be focused towards design and development of new novel and indigenous plant based drugs. All the works have been completed as per the schedule. Hence the progress of this research work goes as per schedule. I assure you that the work will be completed successfully within the stipulated time.

#### **OUTCOME OF THE PROJECT**

- 1. Above three hundred and fifty members learned about foldscope assembly and its usage.
- 2. School students of various levels (120) have analyzed the plant and microbial samples on their own.
- 3. The **College students** among various disciplines (256) of our college were benefited by participating in foldscope workshop.
- 4. In our college research committee organize a workshop and invited me to deliver a talk about "Tools to revitalize research and teaching". In connection with this programme I have delivered a lecture about a paper based origami microscope Foldscope. All the faculty members & Research scholars of various disciplines were utilized and enrich their knowledge.
- 5. As the Principal Investigator, I assure that the foldscope was very much useful for anatomical and histochemical localization of certain endemic and ethnic medicinal plants. And also it is much useful for screening of litter decomposing microorganisms. It might helpful for their research work.
- 6. Lab assistants of our college were gained knowledge about foldscope and its usage.
- 7. Foldscope facilitate the post graduate students for anatomical observation and histochemical localization of important medicinal plant specimens.
- 8. Northeast Collaboration with Mizoram University, Aizawl and presented a paper about assembly and usage of Foldscope.
- 9. Organized a Foldscope Collaboration workshop with Erode diagnostic laboratory.
- 10. Introducing foldscope tool to **Tribal communities** (Irulas) in our study area.
- Demonstrate a Foldscope hands on training in Nandha arts and Science College, Koorapalayam, Erode, Tamil Nadu.
- 12. Handling and usage of Foldscope methodology were explained in **Bharathiar University**, Coimbatore, Tamil Nadu.

- 0
- 13. Two research articles were accepted for publication by adopting this foldscope in International Journal of current Pharmaceutical Research and Medicinal and Aromatic plants that adds the quality of the project.

As a whole it was very much useful for the students and teaching faculty.
