Respected Sir/madam,

With due respect we bring to your kind notice that the software module *CampesiLIB* is installed and running fine at your institution. It will be most helpful for us if you join with us for an AMC to meet our expenses and over heads for extending our service after the post implementation periods. Since the modules are of database applications the following maintenance need to be done periodically or when need arise.

- i. Database recoveries on server crash (Data availability).
- ii. Database log maintenance and indexing (Database performance).
- iii. Improvements in reporting Formats and Conditions for External Inspections like NAAC,NBA, University Commissions . (Data Presentation)
