### Recommendation Letter

Medicinal plants have been playing an essential role in the development of human culture. The knowledge of medicinal plants has been accumulated in the course of many centuries based on the different medicinal systems such as Ayurveda, Unani, Siddha and Homeopathy. Ethnomedicinal practices are preferred largely because medicinal plants are less expensive readily available and reliable and they are considered to have fewer side effects than modern medicines. Hence in the present investigation, the potential medicinal plant *Acalypha paniculata* Miq belongs to the family Euphorbiaceae was selected and collected from Eratti hills of Burgur range reserve forest located in the North East of Erode district, Tamil Nadu. The plant was selected to analyse the pharmacognostical studies, qualitative and quantitative analysis, antimicrobial studies, *in vitro* antioxidant studies and isolation of the novel phytoconstituents. She is a sincere, hard working and eligible scholar to receive the financial assistant to pursue Research work. Since she hails from a poor family the candidate is strongly recommended to avail the financial support from your office for the forth coming years (2019-2020, 2020-2021) to complete her Ph.D., degree.
