Report on e-Governance 2019-2020

It is our proud privilege to inform the management that e-Governance (*e2smart*) has achieved improved efficiency and enhanced functional operations.

The College Management System (CMS) module is regularly checked for technical hiccups.

The digital payment system has been successfully implemented.

Online examinations have been conducted resulting in faster publication of results and easy access to the results by students.

Digitization of documents reflects the institutions policy of eco - sustenance and the paperless e-transaction has made retrieving information easy for all the stakeholders.

e-Governance has strengthened the coordination and cooperation of all the stakeholders involved on the premises.

Efficient use of Information and Communication Technology (ICT) has facilitated transparent communication at various levels leading to faster implementation of new ventures.

Delivery of courses online using CMS and on platforms like Google Meet and Zoom has widened the learning horizons of students.

It is expected that the use of e-Governance in many other arenas in the upcoming years will sustain and increase the quality of interpersonal and intrapersonal relationships of the stakeholders.
